We have a wonderful team of *Occupational Therapists, Psychologists, Speech Pathologists, Physiotherapists, Social Workers, Teachers, Web Designers, Illustrators, and Mums and Dads* behind the scenes at Look Hear Australia, constantly updating and improving our site.

“We are a group that are passionate about making things easy for each other as professionals, as well as the families we treat.”

We are also want to demonstrate that it is “not hard to make it easy”, meaning that it is not difficult making language simple, information accessible and adding visuals to services and therapy to make life easier for everyone.

We started in our back yard, rural and remote Australia – and now we are ready to take over the globe!
